REVIEW OF THE WEEK IN FINANCE

Securities Recover, with War in Mexico Less To Be Feared.

MARKET DISCOUNTS THE RATE INCREASE

in Steel Trade-Bank Surplus Greater.

Overtures toward a peaceful settlement of the threatened war in Mexico brought about a partial recovery in the securities market last week that was aided and carried further by indications of a favorable decision in the freight rate case. European selling ceased to press on our market, and moderate buying for foreign account took its place. Money was easier, with a war loan less imminent, but the bond market continued dull, with prices not much improved. Such change in general business as was noted was not for the better.

Efforts of Argentina, Brazil and Chili

toward mediation in the Mexican diffioutrages on Americans in Mexico were proved unfounded, and it was hoped year. that if no untoward event brought renewal of hostilities, pressure enough might be brought on Hureta to cause him to give way to some man more acceptable to the United States and to the rebels of the north. The favorable regard with which Washington apturbing feature of the situation, for it tended to rule that American life and property have received least protecthe State Department so distrusted by viewed with some misgivings.

Anti-Trust Bills Still Alive.

Little hope remains that Congress this session. The Senate is considering bill differing in some respects from tion. that introduced in the House. A provision is included in the Senate measure for regulating corporate financing and forbidding the "watered stock." Price fixing is not allowed, and there is no attempt to free trade unions and farmers' organizations from the operation of the Sherman law. Organized labor has already made demands that the provisions of the House bill in their favor be made stronger and more specific.

Despite the urgent need for the regular army elsewhere, the President was forced to send troops to keep order in the mining fields of Colorado. Here, as ewhere, it has proved poor economy for a state to delegate to employers in a labor dispute its duty of protecting life and property. Agitators are quick to seize the opportunity of convincing Loans and deposits each shrank about the strikers of what many from their \$10,000,000. The surplus reserve inexperience in foreign lands are ready creased some \$6,000,000 to \$36,486,550, to believe, that the government is their enemy and that they should this time, and easy money for market despise rather than respect the laws of purposes seems assured unless war

from the railroad situation. The Rock Island's inverted pyramid of high finance crumbled further with the default on the interest of the collateral trust bonds of the Chicago, Rock Isl-

and & Pacific Raffroad. Steel Business Slack.

Business sorely needs the stimulus which renewed railroad buying would give, and such orders are not to be expected until definite announcement is made that a material increase in rates is to be granted. The report of the United States Steel Corporation for the first quarter of the year, with net earnings of less than \$18,000,000, a decrease of some \$5,000,000 from the preceding Railroad Orders Sorely Needed three months and about one-half those reported for the same quarter of last year, is a fair indication of the condition of the basic steel industry. Trade authorities are beginning to express doubt that renewed buying by the roads, coming as late as it now must, would be enough to save the year. Orders last month were small and mill forces are being reduced, plants shut down and furnaces blown out. Imports of finished steel under the new tariff have been light, but lower prices may have played a part in checking foreign competition, which may become more severe when trade improves.

Commercial failures for the week, as usual, were more than in the same period last year. Retail trade was reported fair by the commercial agencies, but wholesale buying was still culties were regarded in the financial limited to immediate needs. Railroad district with favor rather with any earnings for March were in some cases great optimism, as it was realized that improved in net over 1913, this being in refusal of this government to recognize certain instances accounted for by Huerta, which had precipitated the economies in operation and in others present crisis, made a peaceful outcome by the floods of last year, Weekly ifficult. Fortunately, early reports of gross revenues so far reported for April still show some gain over April of last

too long with the problem of the feeblethe statement reads.

York City has listed 3,000 feeble-minded persons for whom there is not a single vacant hed in any institution. The d institution for the feeble-minded on Randall's Island has 400 more patients than it has decent accommodations for. The state custodial asylum at Rome has a waiting list of 400. Craig Colony has a large waiting list, and many do not

known. ture, which meets on May 4, will be + 14 asked to appropriate \$500,000 for nearly one thousand beds in Letchworth Vib lake, Rome, and Craig Colony. This sur will not, of course, meet the situation It will simply prevent the state going backward at the same rapid rate as last
